ADVANCE REPORTED BY GERMAN PRESS IN THE REGIONALS REVEALS THE ON TWO FRONTS

GERMAN NOTES SHARDED PERSON TO PRESIDENT

Method of Transmission Give Rise to Suggestion That It Came From the Kaiser Himself—Unofficial View Is That the Wilson Test Has Not Been Met.

WASHINGTON, October 7.—Germany's peace note was delivered to President Wilson personally today by Frederick Oederlin, an attaché of the Swiss legation. This gave rise to suggestions that it came from Emperor William himself.

NO LETUP IN NATION'S WAR ACTIVITIES

WASHINGTON, October 7.—The notes from Germany and Austria-Hungary, asking an immediate armistice and discussion of peace on conditions previously laid down by President Wilson, were placed in the President's hands today after he had spent the morning in his study with versions of the communications as cabled in press dispatches.

Formal comment was withheld everywhere in official quarters pending the President's decision as to what shall be America's reply. There was no difference of opinion, however, on one point—that there will be no suspension of hostilities in the event negotiations of any kind are started.

The only question among officials and diplomats seemed to be whether President Wilson would be willing to ask the allies to consider negotiations even with the fighting continuing.

Discussion in Senate. While word from the White House was awaited, the senate discussed the latest phase of the peace offensive, leaders on both sides of the chamber declaring emphatically that no suspension of hostilities should be contemplated.

One indication of the President's probable action came in a statement by Secretary McAdoo, warning the country against permitting victories on the battlefield and overtures of peace from the enemy to interfere with the fourth Liberty loan. "Our boys in the trenches are not going to stop fighting because the enemy is on the run," Mr. McAdoo said.

Prompt Reply Expected. A prompt and decisive reply to the latest peace proposal, which was first announced Sunday, was indicated by developments in Washington today.

What Germany Must Do. Official announcements of the attitude of the United States Government will be being withheld, but there was no statement of the indication that if Germany seeks a "negotiation" leading to some stable conference, the United States will accept the offer.

Attempt to Barter. Washington regarded the latest German peace movement as an attempt to barter for peace—peace to Germany's advantage, but peace to American-ized areas on visit verification on the back of the army. The offers consisted of proposals for a general and complete peace, with the return of all German territory now in possession of the allies.

First Formal Offer. This is Germany's first formal offer of peace. It was noted that it was made to the President with a request that he write America's associates in the war to send plenipotentiaries for the purpose of opening negotiations. Attention was directed to the fact that throughout the note the term "the Ger-

BOOST THE LOAN

"Our answer to the Kaiser's peace talk should be a handsome over-subscription to the present Liberty loan," said Mayor Charles W. Jewett today, when asked to express his opinion of the latest peace overtures by the Huns. Although the mayor spoke only for himself, he voiced the opinion of "the man in the street," which briefly was "unconditional surrender."

FIGHTING DISASTER.

PARIS, October 7 (Havas).—The request for an armistice and the opening of peace parleys by the central powers is looked on by the French press generally as an attempt to evade certain disaster. It is declared that Germany hopes to conclude a peace which will permit her to exploit the peace treaties of Brest-Litovsk and Bucharest and also to save the Hohenzollern dynasty.

An armistice under the present conditions, the newspapers think, is impossible. The conditions in Germany's peace note do not at all correspond with the conditions for peace laid by President Wilson.

NEBRASKA SENATOR ON SUSPENSION OF HOSTILITIES.

LODGE SOUNDS WARNING

WASHINGTON, October 7.—Discussing Germany's peace offer in the senate today, Senator Hitchcock, of Nebraska, chairman of the foreign relations committee, declared "absolutely abhorrent" even a thought of suspension of hostilities now and recommended the addition to the resolution previously laid down by the President as a basis for peace, one providing that the allies would deal only with the representatives of the German people.

ARMISTICE MEANS LOSS.

Republican Leader Lodge, ranking minority member of the foreign relations committee, declared that an armistice "would mean the loss of the war and all we have fought for." Germany, he said, now merely proposes a long debate on the basis of peace.

LIBERTY LOAN APPEAL

WASHINGTON, October 7.—In an appeal to the people not to let victories on the battlefield and peace overtures from the enemy interfere with the fourth Liberty loan, Secretary McAdoo said today, "Our boys in the trenches are not going to stop fighting because the enemy is on the run."

German troops are retiring on two fronts. Caught between the armies of Generals Gouraud and Berthelot, on the front between Rheims and the Argonne forest, the enemy is falling back in considerable haste toward the Retourne river. The retreat from the region of Lille south to Cambrai appears to be becoming more rapid.

Great fires are burning in all the regions from which the Huns are withdrawing. These fires, kindled in spiteful fury as the enemy realizes his inability to cling to the territory longer, include everything, even the ruins of houses and other objects of no possible military worth.

At last the city of Rheims has been completely delivered from the German threat by the brilliant operations of the French who have crossed the Suippe river east of Craonneville and have reached the outskirts of Bazancourt and Boul-sur-Suippe. After suffering heavy losses, the Germans retired in disorder from Clement-Arnes.

The German line from St. Quentin south to the Ailette and thence eastward to Berry-au-Bac, is standing quite firmly and evidently this part of the enemy's position is being used as a pivot as his armies, to the north and east, swing back to new positions. Italian forces, however, have struck at the German lines in front of Laon, and early reports of progress justify the belief that the hinge of the foe's lines may be broken. Fires have been observed in the vicinity of Laon.

Much Eastbound Traffic. The German resistance along the present front in Flanders and northern France is believed to be a gigantic rear guard action for the purpose of holding the allies until the Valenciennes line is completed. Only a few days ago, enemy prisoners reported that the defense system was not ready. The roads between the Hindenburg line and the northeast are jammed with traffic of all character, including civilian equipment.

Americans fighting under the command of General Gouraud are credited with the capture of the town of St. Masmes, northeast of Rheims, and penetrated the town of Hauvine, farther to the east and north of the Arnes river, the French war office announced today.

Northeast of St. Quentin, the Germans attacked several times in an effort to retake the position conquered by the French. All the attacks in the region of Tilloy farm were repulsed. Fighting in that region continues.

LONDON, October 7.—Further progress was made by the British last night on the front between Lens and Cambrai. Field Marshal Haig announced today that posts have been established on crossings of the Scheldt canal north of Aubencheul-aux-Bacs and east of Oppy.

German troops are retiring on two fronts. Caught between the armies of Generals Gouraud and Berthelot, on the front between Rheims and the Argonne forest, the enemy is falling back in considerable haste toward the Retourne river. The retreat from the region of Lille south to Cambrai appears to be becoming more rapid.

Army and Navy sports issued by committee on training camp activities. WASHINGTON, October 7.—Football will be one of the most popular sports in the various army and navy training camps this autumn, if reports received by the war and navy departments are correct.

Unless the influenza epidemic plays further havoc with football schedules, Big Ten elevens generally will get under way this week. Neither Indiana nor Purdue has conference games booked for Saturday, but the Crimson is slated to entertain Wabash on Jordan field while the Boiler Makers are down to meet DePauw at Lafayette.

GERMANS OFFER

Continued from Page One.

Germany may be asked to give up its colonies... The chancellor's promise that an effort will be made to reach an understanding regarding an indemnity to Belgium is not enough for our purpose.

Perhaps the most welcome feature of Germany's hastily arranged move is that it can only be a measure of her military necessity.

The Kaiser's Nominee. The Morning Post, commenting on Prince Maximilian's peace proposal to President Wilson...

WASHINGTON, October 7.—As an indication of the real character and purposes of Prince Maximilian of Baden, now called to the front as Germany's spokesman for peace, the committee on public information has made public a translation of a speech delivered by the prince before the upper chamber of Baden August 21.

SOCIALISTS EXPRESS VIEW.

Resolution Addressed to Wilson Adopted at Paris Gathering.

PARIS, October 7 (Havas).—The national congress of the Socialist party, which opened here yesterday, adopted a resolution addressed to President Wilson concerning the peace proposals of the central powers.

The message says the party notes with joy the new result of the sustained efforts put forth and the great sacrifices made by the soldiers of the allied democracies.

The resolution refers to President Wilson's speech of September 27 and in the name of the assemblies and associations comprising the congress, representing the people and the workers, asks the governments of the allies frankly to declare their purposes.

The previous action of the Socialists in endorsing President Wilson's fourteen peace points likewise is reviewed and the resolution adds:

The party associates itself more than ever in all acts of President Wilson which will have the result of giving satisfaction to the masses who struggle and who have the right more than all others of having the response to the central powers not open to any misunderstanding.

It is by this policy that the Socialist party feels that it, like President Wilson, is working to bring about a just and durable peace.

ADVICE OF HIGH COMMAND. German Newspaper Says Latest Peace Step Had Approval of Military.

BERNE, Switzerland, October 7 (Havas).—The German government took its latest peace step on the advice and with the approval of the high command of the army, says the Stuttgart Neues Tagblatt.

The Evening Sun declared: "There is only one answer that can be made to such an overture as this. It is the same answer that the sheriff's posse makes to a bandit cornered in a bunch of trees or an old house."

TO SAVE HER SKIN. Object of Germany's Latest Offer, Says Nicolai Barnes.

LONDON, October 7.—Germany, in her latest peace offer, seems anxious to save her own skin, even at the expense of her allies, said George Nicolai Barnes, member of the war cabinet, in a speech at Derby last night.

UNCONDITIONAL SURRENDER. This is the Demand of New York Evening Papers.

NEW YORK, October 7.—New York's evening newspapers, without exception, demanded unconditional surrender of Germany as the terms for peace, in commenting on the peace notes of Austria and Germany.

TURKISH PARLIAMENT. Sessions to Open Thursday in Presence of Sultan.

CONSTANTINOPLE, October 7 (via Basel, Switzerland).—The Turkish parliament will open its sessions October 10 in the presence of the sultan.

Spanish Press Comment. MADRID, October 7 (by the Associated Press).—The Diario Universal, the organ of Count Romanones, minister of justice, sees in the German peace proposal the best proof of the superiority and efficacy of democratic principles.

Rejected by the Vatican. PARIS, October 7.—Austria-Hungary recently insisted that the Vatican undertake steps toward peace, it is reported in Rome, according to a Havas dispatch from that city.

League Head Called to Berlin. BERNE, Switzerland, October 7 (Havas).—The head of the League of Nations is expected to be called to Berlin for a meeting with the German government.

FOOD DIRECTOR TAKES OVER CITY ICE PLANTS

ONLY FOUR TO OPERATE DURING OCTOBER.
SLIGHT PRICE INCREASE
Under the terms of an arrangement, effective today, every ice plant in the city becomes a part of an association under the general direction of the United States food administration and subject to whatever regulations may be laid down for the further conservation of fuel, labor, ammonia and other products included in the manufacture of ice.
The plans have been in process of formulation for several days. Stanley Wyckoff, federal food administrator for Marion county, who heads the association, says:
Under the terms only four plants will operate in October, only two in November and possibly only one after that. Other companies have agreed to "pool" the output of the plants which operate.

Companies in Agreement.
The companies signing the agreement are: Polar Ice and Fuel Company, Heat Ice and Cold Storage Company, Artificial Ice and Cold Storage, City Ice Company, Indiana Refrigerating Company, Conroe & Taylor, Service Ice and Cold Storage Company, Merchants' Ice Company, Zero Ice Company, United Ice Company and Irvington Ice Company.
The total output of these eleven companies is 20,000 tons annually. Allotments to dealers will be made on the basis of business done in the three years commencing October 1, 1915, to October 1, 1918, sales to other manufacturers not being included.
A total of 1,200 tons of ice must be manufactured by the four plants in October to meet the demand.
Prices Decided On.
The following prices for ice have been agreed on by the members of the association:
Weight customers, including restaurant keepers, grocers, butchers, etc., 3 1/4 cents a 100 pounds.
Family trade will be supplied at 4 1/2 cents a 100 pounds. The plant price will be 5 1/2 a ton.
Long of government refrigerator cars will be handled by a special committee, composed of Mr. Wyckoff and two other members of the association.
Books of each company are to be audited by the association as often as desired. Willful misstatements are punishable by a heavy fine, payable to the Red Cross.
\$8 A QUART FOR WHISKY.
Alleged "Bootlegger" Says He Paid That Price for Supply.
Eight dollars a quart is the price asked for whisky by some "bootleggers" in Indianapolis, according to the testimony in city court Saturday of William Sedan, of Fulton county, who was arrested Friday night on a "blind tiger" charge by Sergeant Walter White.
Sedan told Judge Pritchard he bought the whisky from a man he did not know in West Pearl street and paid \$8 a quart for it. He was arrested by Sergeant White as he was giving a drink to a merchant policeman at Missouri and Pearl street. He was fined \$50 and costs.

Peter Williams, proprietor of a garage at 111 Virginia avenue, was arrested Friday night on a "blind tiger" charge as a result of a warrant filed by patrolman Martin O'Brien. O'Brien arrested Harry Hudson Friday as he was coming to Indianapolis with an automobile load of liquor, and Hudson, it is said, told him the automobile is owned by Williams.
Little Stories of Daily Life
"Doctor's Car."
Harvey, Jr., was invited by his uncle to accompany him on a long out of town professional trip last Sunday. The boy's mother was sick, his father was "out on the road," so this seemed a good way to dispose of the bothersome Harvey for the day.
But he did some thinking meanwhile. He couldn't help it. The same blood flows through his veins as that of the great uncle for whom he was named, who as a lad of eighteen gave his life in the battle of Gettysburg. After spilling a bottle of ink on the living room rug and the table cover this note was sent to his uncle.
"Dear Uncle Doctor: Course I am not afraid of Jack or Joe. They lives next door and they say they no two soldiers that they cum Sunday and shoot your tires full of holes. I can lick both of them.
"But I think any body what rides in a doctor's car on Sunday, that is not a doctor is a slacker."
"Trooley."
"HARVEY."
Rival Firms.
Out in the oil country, where people sometimes get rich overnight, it is a bit hard to acquire all the makings of a fitting establishment, without making a few breaks. One woman, with more money than actual experience in handling it, was puzzled about stocking up her silver closet, and said, to a new acquaintance:
"I don't know just what to get for my best silverware. They do a lot of talkin' up for Sterling's silver, but do you reckon after all it's any better than Rogers'?"
